

KOLOR ABLAZE

REAL POWER OF KIDS AND THEIR TEACHERS: What a show it turned out to be! Can three year old kids speak like this and for this long? I keep asking myself till this moment. What a flow! The ability to face and speak before strangers has come to the fore at a time when we are going to try 'How I Speak' event. To be candid, I entered the show with doubts but left it stunned. I was told that parents had no part in training kids. Very very happy to see the education at LKG picking momentum like this. Hats off to kids, teachers and the head.
